

Panel Discussion ‘Sustainable management of anthropogenic resources’

Conference on Mining the European Anthroposphere, 20-21 Feb. 2020, Bologna, Italy

Andrea WINTERSTETTER

Dr. Andrea WINTERSTETTER holds a Bachelor’s degree in “International Business & French” from the University of Passau (Germany) and a MSc in “Environmental Technology and International Affairs” from the Technical University of Vienna (TU Wien) and the Diplomatic Academy of Vienna (Austria).

In her master’s thesis she investigated how hazardous wastes can be sustainably managed under the Stockholm and the Basel Convention. In 2016, she completed her PhD at the Research Center for Waste and Resource Management at TU Wien, Austria on the classification of secondary raw materials.

After working as a Post-Doctoral researcher at the Flemish Institute for Technological Research (VITO) in Belgium, she currently holds a position as a R&D research associate in the sustainable materials unit at VITO.

Her main fields of interests are sustainable resource and waste management strategies with strong focus on legislation and policy to manage the transition to a clean circular economy. She is an active member of the International Solid Waste Association (ISWA) Young Professional Group.
